

Monoammonium Phosphate (Powdered)

10-49-0

Chemical Composition

Component	Symbol	Guarantee
Total Nitrogen	N	10% Minimum
Available Phosphate	P ₂ O ₅	49% Minimum

This product specification states the guaranteed minimum percentage or guaranteed maximum percentage of each listed component of the product (and, for some components, may state both a guaranteed minimum percentage and a guaranteed maximum percentage, if applicable). The product fails to conform to this specification only if the percentage by weight of any listed component is below the stated guaranteed minimum percentage or above the stated guaranteed maximum percentage. This specification is limited to the listed components and is not intended to, and may not, identify all product components or other elements or substances which may be contained in the product.
